PREFACE.

N placing before the trade this, the fourth edition of THE JEWELERS' WEEKLY COMPLETE DIRECTORY, the publishers have sought to improve on former issues of the Directory. The list of trade marks, which was a feature of the third edition, has been largely extended, so that it is practically complete, containing nearly 200 illustrations of trade marks used for sterling silverware, silver plated ware, cut glass and art pottery. The addition of the factory address to the office address of manufacturers is a new and valuable feature of this edition.

The errors of former editions have been carefully eliminated, and the labor of revising the text of the Directory has been conscientiously performed. The publishers feel confident that this edition of THE JEWELERS' WEEKLY COMPLETE DIRECTORY will be found the most accurate and complete jewelry trade list ever published.

To the many members of the trade who have contributed information of errors in former editions and who have assisted in rendering the work complete by promptly responding to inquiries, the thanks of the publishers are extended.

Oriental Art

and how it beautifies

a Jewelry Stock

A WORD

TO THE

PROGRESSIVE

JEWELER

The conceits of the Orientals are innumerable; uniqueness and a remarkable degree of artistic beauty distinguish all their creations. Thus it is that Oriental goods are especially appropriate for high grade jewelry displays. For this reason, if for no other, you should become familiar with Vantine's Oriental products, which include, among other importations, superb lines of Oriental Lamps, all sizes and designs; Japanese Bronzes, in figures, vases, koros, statuary; White Metal novelties; Chinese and India Solid Silverware; fine Japanese Porcelains and Potteries in bric-à-brac and tableware; in fact, everything from the Orient possessing utility and artistic merit. Write us to-day.

A. A. Vantine & Co.

Largest Japanese, Chinese, Turkish, Persian, Egyptian and India House in the World.

Wholesale: 18, 20 and 22 East 18th Street,

Retail: 877 and 879 Broadway, NEW YORK.

Wholesale Sample Room at 200 and 202 Madison Street, CHICAGO.

Newark, N.J.

SOME TRUTHS REGARDING THE AJAX WATCH INSULATOR.

The Ajax Watch Insulator is the best Insulator in the market, but unfortunately it is imitated. The fact, however, that it is counterfeited is sure evidence of its value. There are numerous imitations of the Ajax Watch Insulator, which agents and dealers have been persuaded to buy because they are represented to be just as good as our Ajax Insulator. They are not, however; but like every counterfeit they are lacking the wonderful qualities of the genuine.

Ask for the Ajax Watch Insulator and take no other.

19 Maiden Lane, NEW YORK.

TO THE TRADE

ALL our patent seamless "one piece" Safety Pins are made of stiff springy stock, and the spring is so distributed that they are not liable to break in use. The popularity of these goods has tempted other manufacturers to imitate them as nearly as possible, and some of these imitations are in appearance almost exactly like our pins, but the slightest test will demonstrate their inferiority. We do not believe it is possible to make a good pin of this kind without infringing our patent.

Our pins may be known by the date of Patent, April 3, 1888, stamped on each pin.

Ask your JOBBER for the Patent Seamless One Piece Safety Pin, as we do not sell the retail trade.

PROVIDENCE, R. I.

New York.

Sales made for established dealers in all parts of the United States.

HENRY BLUNDELL & CO.,

Nos. 35, 37 and 39 Clifford St., PROVIDENCE, R. I.

HIS illustration represents our Automatic Solder Cutter. Being provided with friction feed and rolls, the cuts may be regulated from 5-16 square to fine dust solder. The principal advantage of this solder cutter over others is that you do not have any troublesome cutters to change whenever you want to cut different size solder. Two simple adjustments

are all that is required to change to any cut desired. Working automatically, needs no attention after once started as long as there is stock to feed to the cutting plunger. Anyone capable of setting a plunger to a power press can set this machine.

We solicit your

inspection of the same.

"THE PEERLESS" Watch · Bezel · Cutter.

An entirely new and the most practical tool for the purpose yet produced.

It is so simple in its construction that the chances for its getting out of order are reduced to a minimum. Not easily broken, except by carelessness, thus making it durable.

The adjustment is simple and can be made in a very short time to cut any standard size bezel.

Great pains have been taken to make this a perfect sol, not only in the wearing parts, but throughout its construction. The tools are nicely finished and nickel plated. Warranted in every way.

Ask your dealer for "THE PEERLESS" and have no other.

On receipt of five cents in stamps and business card, we will send catalogue of over one thousand fine watch and bench tools, together with our latest supplements.
